

:: New Products for the Professional

Ben Nye has been working non-stop creating stunning new products for professionals everywhere.

We designed them just for you!

:: Stunning Creme Stackables

Accentuate beauty or heighten F/X realism with our pre-assembled, five-color Stacks. Select from **Bruise, Burn & Age F/X, Lumière Creme Brilliant & Metallic, Neutralizer and Lip Gloss.** All Individual shades are now packaged in this handy, stackable container. Introducing two new F/X shades: **Bruise and Vein.**

:: Ivory Hair Color

Finally, artists no longer need to add yellow to hair whiteners to neutralize unwanted "blue effects". Suggested by veteran artist, Leonard Engleman, **Ivory** contains just enough golden yellow for realistic grey or aging on dark hair. Removes easily with shampoo.

:: Dark Blood

Aged and oxidized **Dark Blood** creates excitement and intense drama for "old" wounds. Darker than our popular arterial **Stage Blood**, but with the same minty flavor. Safe for use in the mouth.

:: Belle Visage Poudre Compactés

Olive and Brown Complexions
Discover the nuances of our new **Poudre Compactés** in seven natural olive and brown shades. Colors are subtly warm or naturally golden in a non-reflective micro-formula designed for Hi-Def, print and film.

:: Eye Shadow & Blush Palettes

Universal Appeal!
Our sleek palettes are available in two new eight-color ensembles for film, fashion and theatre. New **Eye Shadow Palette** (ESP-912) is an artist's essential collection of neutral shades for eyes and brows. The **Blush Palette** (ESP-922) includes highlight and contour colors for most complexions. Both lines are reformulated in a richly pigmented and silky smooth texture. Refills are available for all **Eye Shadow, Blush** and **Lumière Grande Colours**.

:: Matte Foundation Palette

12 Refillable Shades
This is the ultimate palette to enhance just about any skin tone. **Matte Foundation** is flawless for sheer to full coverage and indispensable for professionals and students. Makeup schools are invited to inquire how Ben Nye can be a part of their program.

:: Matte Foundation

New HD Formula

Moist emollients and micro-pigmentation are now combined for a superb texture developed for the professional. Natural shades provide sheer to full coverage for a Hi-Def approved finish. Coming soon: Elegant new olive and brown Matte shades!

:: Lumière Creme Colours

17 Sizzling Shades

Ultra-rich cremes produce a burst of luminescence in 17 lavishly-pigmented shades! Refillable palette contains 12 best-selling, high-energy colors. Layer with **Lumière Grande Colour** for amazing opulence. Individual pots stack for convenience.

:: Lumière Grande Colour Palettes

Brilliant & Metallic

Our most popular **Lumière** shades are now available in two wildly useful eight-color combinations: **Metallic** (ESP-93) and **Brilliant** (ESP-94). Colorize any design for runway, theatre or fashion. Refillable, magnetic case neatly tucks into any kit.

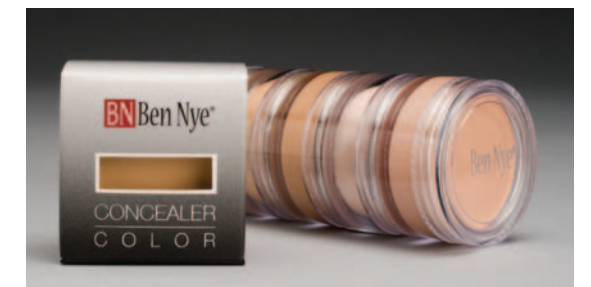

Our new catalog will debut this fall!

:: Shimmer Crayons

High-Intensity and Smudge Proof
Indescribably delicious! Shimmery, high-intensity Silver and Gold creme crayons glide on like liquid metal, then "dry" to a smudge and waterproof finish. Safe for eyes, but you'll want to use them everywhere! Available late summer.

:: Creme Concealers

Now Stackable!

Ben Nye, Sr. pioneered neutralizing essentials such as **Mellow Yellow**® and **Beard Cover**. Today's intensely pigmented concealers are standards for film, bridal, runway or stage. Five "must have" correctors are pre-assembled to cover tattoos, redness, bruises or under eye discoloration.
